Re: Case # 2013-00332

I would like to express my opposition to the proposed intentions of AmeriGas to discontinue our current propane service and replace it with individual residential tanks. The following points should be considered:

- The proposed changes is unnecessary as our current system is performing well
- Our current system is less than 6 years old
- The proposed changes will not increase efficiency
- Our neighborhood should not be penalized with increasing gas prices for the benefit of the parent company
- Current deed restrictions do not allow burial of gas tanks on our properties
- The arrangement of my house/lot does not allow for placement of a tank anywhere other than my front yard (and cannot be buried there due to trees and mature landscaping)
- I would expect an environmental study would be performed before any metal tanks containing gas could be buried

Thank you for your consideration.

Respectfully,

John Cerqueira, PT, MPT
